

SPECIFICATIONS

POWER SUPPLY:	110 VCA 60Hz	Single/Two phase
MOTOR:	½ HP	
ELECTRICAL CONSUMPTION:	0.373 kW/h	
WEIGHT:	118 kg	

PRODUCTION CAPABILITY

DOUGH BALL WEIGHT:	20 g to 140 g
DOUGH BALLS PER MINUTE:	20 to 60 (depending on the size of the dough ball)

Main features:

- Saves labor
- Saves electricity
- Space saving
- Integrated rack for trays
- Easy transportation
- Easy cleaning
- Easy handle
- Low operating costs

Product features:

- Helps to produce the highest quality tortillas
- Prepares dough balls of different weights to obtain different diameters of tortilla

COMPONENTS:

- Conveyor
- Bench
- Rack for trays
